Subject Index, Volume 118

A

Acknowledgment, 1600
trans-Aconitic acid, effect on magnesium, calcium and zinc utilization, 183
Adenocarcinoma, amino acid–restricted diets in treatment of, 1137
Adipose tissue, effect of repeated pregnancy without lactation in rats on cellularity of, 93
— —, influence of different fats on the incorporation of exogenous fatty acids into, 1447
— —, brown, effect of essential fatty acids on, 627
Aging, effect of dietary calcium on bone development with, 1217
—, modulation of changes in serum vitamin D and parathyroid hormone by food restriction and, 1360
Alcohol, effect on coronary heart disease in men, 1184
Alcohol dehydrogenase, induction in *Drosophila melangaster*, 398
Antibody production, effect of dietary leucine on, 1564
Amaranth, effect of processing on nutritional value for young children, 78
Amino acids, decreased requirement in growing chicks due to immunological stress, 1158
— —, digestibility in protein sources, 561
— —, quantitative requirements for growth of Nile tilapia, 1540
— —, restriction in treatment of mammary adenocarcinoma in mice, 1137
Amino acids, branched-chain, effect on growth, food intake and plasma amino acid concentrations of kittens, 311
— —, — —, effect on antibody production and lymphocyte blastogenesis in lambs, 1564
— —, dietary, potential to overcome neurochemical changes in acute T-2 toxicosis in rats, 901
— —, —, transport across the rat blood-brain barrier, 756
— —, free, folate deficiency in rats fed, 1089
— —, —, in spontaneously hypertensive rats, 579
Aminotransferase, aspartate, abnormal molecules in liver of vitamin B-6–deficient rats, 609
—, branched-chain in rat tissues, subcellular distribution of, 1475
Angiotensin-converting enzyme, effect of zinc deficiency on, 622
Apoproteins, role of ω3 fatty acids and chronic ethanol in regulation of, 1299
Arachidonic acid, effect of long-chain fatty acids on metabolism of, 427
Ascorbic acid, endogenous histamine suppression of rat lymphocyte blastogenesis reverses by, 639
— —, urinary, levels in guinea pigs, 895
ATPase, effect of dietary bulk in sheep on, 1553

B

Bioavailability of cereal fructans, 1325
— — — — and copper, 1482
— — ^{65}copper, 1522
— — copper enhanced by phytic acid, 712
— — lysine in browned protein in trout, 19
— — ^{54}manganese, 1509
— — vitamin B-6 from rat diets containing fiber, 65
Biographical article, Andre Gerard van Veen (1903–1986), 281
— —, Charles Glen King (1896–1988), 1272
— —, George O. Burr and the discovery of essential fatty acids, 535
— —, Herman Boerhaave on nutrition, 141
— —, James A. Halsted, 421
— —, Ruth Okey, a woman in science: 1893–1973, 1425
Biotin, from dried egg product, availability to chicks, 604
— deficiency, effect on human serum fatty acid composition, 347
Blood-brain barrier, amino acid transport across, 756
Bone, analysis of effects of calcium and vitamin D on metabolism of, 99
—, effect in ewes of dietary calcium on growth of, 976
—, effect of dietary calcium on metabolism of, 1217
— development, effects of dietary lactose and a vitamin D-deficient diet on, 72
— turnover, retention of skeletal fluoride during, 362
Book review, *Alcohol and the Cell*, 796
— —, *Animal and Human Calorimetry*, 1254
— —, *Animal Nutrition*, 797
— —, *Annual Review of Nutrition*, vol. 7, 916
— —, *Basic and Clinical Aspects of Brain Development*, 1598
— —, *Cellular Calcium and Phosphate Transport in Health and Disease*, 1597
— —, *Contemporary Issues in Clinical Nutrition and Skin*, 1256
— —, *Dipeptides as New Substrates in Nutrition Therapy*, 1253
— —, Editor's Comment, 917
— —, *Food and Nutrition Information Guide*, 653
— —, *Free Radical: Albert Szent-Gyorgyi and the Battle Over Vitamin C*, 1422
— —, *Handbook of Dietary Fiber in Human Nutrition*, 105
— —, *Handbook of Dietary Fiber: An Applied Approach*, 915
— —, *Harvard's Department of Nutrition* 1942–86, 236
— —, *Human Lactation: Maternal and Environmental Factors*, 1058
— —, *Lipids in Modern Nutrition*, 1255
— —, *Magnesium in Cellular Processes and Medicine*, 651
— —, *Methods in Enzymology*, vol. 122, 1056
— —, *Nutrients and Brain Function*, 1599
— —, *Nutrition and the Brain*, vol. 7, 1165
— —, *Nutrition and the Kidney*, 1595
— —, *Nutritional Toxicology*, vol. 2, 526
— —, *Pediatric Nutrition: Theory and Practice*, 798
— —, *Selenium in Biology and Medicine: Third International Symposium*, 528
Brief communication, effects of protein and methionine ingestion in rats, 128
— —, influence of lactitol on absorption and retention of calcium in rats, 793

C

Cafeteria diet, tool for studies of thermogenesis, commentary, 925
Calcium, effect on rat bone metabolism, 99, 1217
—, influence of disaccharide on absorption and retention of, 793
—, influence on mineral excretion and nephrocalcinosis in female rats, 1210
—, tricarballylic acid effects utilization of, 183
—, dietary, adaptation of magnesium-deficient rats to low, 729
— —, effect on ewe metacarpal growth, 976
—, loss, relationship to dietary protein and phosphorus, 657
—, transport in embryonic chick intestine, 1529
Camostat, effect on rat endocrine and exocrine pancreas, 645
Cancer, and dietary fiber, issues and opinions, 531
—, breast, effect of dietary protein and fat on promotion phase of, 1577

—, relationship of dietary fiber and, issues and opinions, 1591
Carbohydrate, dietary, effect of type on hepatic fatty acid synthesis and triglyceride secretion, 1061
Carbon dioxide, rumen and blood, effect of phlorizin injection and propionate feeding on, 1366
Carboxypeptidase, response to protein consumption by rats, 723
Carcass composition, effects of high protein or excess methionine on, 128
— —, repeated pregnancy without lactation, effect on, 93
Carcinogenesis, rodent diets for studies of, commentary, 929
Carnitine, role in human nutrition, 541
— deficiency in neonate rabbits, 1535
— palmitoyltransferase synthesis, transcriptional regulation in riboflavin-deficient rats, 1128
β-Carotene, effect on corn oil–induced superoxide dismutase, and catalase, 152
Casein, response of cardiac glycogen to, 888
Cassava, effect on energy and protein digestibility and utilization in young children, 877
Catalase, effects of β-carotene and retinyl palmitate on, 152
Cereal fructans, availability in rat intestinal tract, 1482
— —, availability in rats and humans, 1325
Ceruloplasmin, effect of obesity, food intake and adrenalectomy on, 739
— synthesis, interleukin-1–stimulated induction of, 375
Chickens, amino acid requirements of, 1158
—, availability of biotin from dried egg products to, 604
—, calcium and phosphate transport in, 1529
—, discrimination against ergocalciferol by, 633
—, effect of diet type on intestinal protein synthesis in, 1068
—, effect of excess zinc on pancreatic exocrine function in, 681
—, effect of lead and niacin on growth and serotonin metabolism in, 107
—, excess dietary zinc decreases tissue α-tocopherol in, 1349
—, metallothionein accumulation and zinc administration in, 176
—, role of adenosylcobalamin in leucine synthesis, 159
—, role of compensatory gain in *Eimeria acervulina*–induced liver copper accumulation in, 871
—, toxicity of parenteral copper in, 1398
—, aged laying, egg shell quality and cholecalciferol metabolism in, 1018
—, lean and obese, energy metabolism in, 1232
—, — — —, thermogenesis and energy metabolism in, 1232
Chimpanzees, digestion and passage kinetics of, 1082
Cholesterol, effects of oat fiber on plasma and liver concentrations of, 144
—, protein-fat interactions on serum, 548
—, soluble oat fiber tends to normalize lipoprotein composition of plasma, 1455
—, dietary, effect on hydroxymethylglutaryl coenzyme A reductase during pregnancy and lactation in rats, 1177
—, —, effect on plasma lipids in normolipidemic men, 555
—, —, effect on rat plasma lipid composition and liver microsomes, 661
—, —, prevention of teratogenic action of AY 9944 by, 774
—metabolism, effect of diet during pregnancy and lactation on, 1177
— —, effects of hemolytic saponins and bile salts on, 1391
Choline, deficiency increases Z protein concentrations in rat liver, 1116
— requirement for optimal keratinocyte growth in a defined culture medium, 1487
Chromium, biologically active, in bovine colostrum, 39
Chylomicrons, clearance in rats fed a high fat diet, 1294
Colostrum, bovine, purification of chromium complex from, 39
Commentaries, accuracy and reliability of nutrient intake estimates, 1432
—, cafeteria diet as a tool for studies of thermogenesis, 925
—, effect of protein and phosphorus on calcium, 657
—, rapid auto-oxidation of fish oil in diets without added antioxidants, 425
—, rodent diets for carcinogenesis studies, 929
—, vitamin C identification, historical summary, 1290
Copper, absorption by women fed goose meat, goose liver, peanut butter and sunflower butter, 1522
— deficiency, effect on rat primary free radical defense system, 613
— —, graded reduction in immune status in mice as a result of, 1041
— —, influence of iron and sex of rats on, 214
— —, liver, cardiac and adipose tissue fatty acids in, 480
—, dietary, requirement of young rats for, 487
—, *Eimeria acervulina*–induced accumulation in chick liver, 871
—, influence on ceruloplasmin synthesis in rats, 375
—, influence on rat serum superoxide dismutase activity levels, 474
—, regulation of metallothionein gene expression by, 222
—, role in regulation and accumulation of rat liver superoxide dismutase and metallothionein, 859
—, tissue levels in zinc-deficient diabetic mice, 1502
—, toxicity, dependence on route of administration in chicks, 1398
Corn, immature, niacin source for rats, 165
Cortisol, response to equine diets, 206
Cows, chromium in colostrum of, 39
—, effects of selenium and vitamin E status on plasma creatine kinase activity in, 747
—, immune response to infectious bovine rhinotracheitis virus challenge, 229
—, phlorizin and propionate effects on metabolism of, 1366
—, lactating dairy, effect of bovine somatotropin on energy metabolism and nitrogen utilization, 1024
—, — —, effect of bovine somatotropin on metabolism of glucose and nonesterified fatty acids, 1031
Creatine kinase, effects of selenium and vitamin E status on, 747
Cysteine dioxygenase, hepatic, possible indicator of dietary protein quality, 456
—-containing synthetic short-chain peptides, utilization after intravenous bolus injection in rats, 1470
Cytokines, nutritional aspects of leucocytic, critical review, 1436
—, tumor necrosis factor–mediated hypoalbuminemia, 1586

D

Dehydroepiandrosterone, effects of adrenalectomy and starvation-refeeding on rat hepatic lipogenic responses to, 1011
—, short-term treatment effects on serum and pancreatic insulin in Zucker rats, 382
Dogs, zinc absorption in small intestine of, 61
Drosophila melanogaster, induction of alcohol dehydrogenase by ethanol in, 398

E

Editorial Comment, identification of vitamin C, 1271
Eicosanoid production, effect of long-chain ω3 fatty acids on, 427
— —, protein-fat interactions on, 548
Energy, dietary, food intake of lean and obese Zucker rats in relation to, 503
— metabolism, effect of dietary bulk on, 1553
— —, expenditure in free-living humans with doubly labeled water, measurement of, 1278
— —, in genetically fat and lean chickens, 1232
Epidemiological studies, utility and limitations, issues and opinions, 137
Epithelial cell cycle, effects of fermentable fibers on, 840
Ergocalciferol, enhanced metabolic clearance rates result in discrimination against, 633
Erythrocyte polyamines, effect of zinc deficiency on, 995
Errata, 1166
Essential fatty acid deficiency, effect on rat metabolism, thermogenesis and brown adipose tissue, 627
Ethanol consumption, effect on rat membranes, 1097
— —, influence on maternal-fetal zinc transfer in pregnant rats, 865

— —, possible stress factor in niacin- and vitamin B-6–deficient rats, 963
— —, role in regulation of rat plasma and liver lipids and plasma apoproteins, 1299
Exercise, effect on catch-up growth of rats recovering from undernutrition, 1410

F

Fat, dietary, and coronary heart disease in men, 1184
— —, effect of type on hepatic fatty acid synthesis and triglyceride secretion, 1061
— —, effect on β-adrenergic–mediated chronotropic response in rats, 1304
— —, effect on carcinogen-induced breast cancer in rats, 1577
— —, effect on plasma lipids in normolipidemic men, 555
— —, effect on rabbit and rat lymphocyte proliferation, 11
— —, effect on rabbit immune status, 1376
— —, influence on fatty acid incorporation into rat adipose glycerides, 1447
— —, lipoprotein lipase activity and chylomicron clearance in rats fed high, 1294
— —, repression of dehydrogenase synthesis and mRNA by, 408
Fatty acid deficiency, effect on rat liver microsomal membrane, 1311
— — desaturation, protein-fat interaction on, 548
Fatty acids, effect on lipid composition and liver microsomes, 661
— —, influence of dietary fat on incorporation into adipose glycerides, 1447
— — in liver, cardiac and adipose tissue in copper deficiency, 480
— —, regulation of plasma and liver lipids and plasma apoproteins, 1299
— —, hepatic synthesis, effect of fructose- or glucose-based diets containing corn oil, tallow or marine oil on, 1061
— —, long-chain, effect on arachidonic acid metabolism in rats, 427
— —, odd-chain, biotin deficiency effects composition of, 342
— —, short-chain, production from mono- and disaccharides in fecal incubation system, 321
Ferritin, serum, relationship to iron absorption and serum transferrin, 1110
Fiber, cereal, metabolizable energy for humans, 945
—, —, cottonseed, effect on metabolic parameters in diabetic rats and humans, 1143
—, dietary, and cancer, issues and opinions, 531
—, —, and mineral balance in men, 1197
—, —, effect on metabolizable energy of human diets, 1075
—, —, effect on mineral balance in men, 1197
—, —, influence on human colonic short-chain fatty acid production, 321
—, —, processed oat hulls as a source of, 953
—, —, vitamin B-6 bioavailability in diets containing, 65
—, —, vegetables and cancer, issues and opinions, 1591
—, digestion, by rumen microorganisms, 261
—, —, and passage kinetics in chimpanzees, 1082
—, fermentable, long-term effects on rat colonic pH and epithelial cell cycle, 840
—, —, availability of cereal fructans and inulin in rat intestinal tract, 1482
—, oat, composition versus physiological function, 144
—, —, normalization of lipoprotein composition in cholesterol-fed rats by, 1455
Fish oil, changes in natural killer cell–mediated cytotoxicity and prostaglandin synthesis induced by, 1245
— —, effect on hepatic fatty acid synthesis and triglyceride secretion in rats fed fructose- or glucose-based diets, 106
— —, effect on rat heart lipid status, 809
— —, modification of rat membrane phospholipids with, 290
— —, rapid auto-oxidation of, 425
Fluoride, skeletal, retention during bone turnover, 362
Folate deficiency in rats fed diets containing free amino acids or intact proteins, 1089
— — in rats, thiamin absorption during, 1343
Fructans, availability in rat intestinal tract, 1482
—, studies on availability in rats and humans, 1325
Fructose, dietary, influence on dietary copper requirement in young rats, 487

G

Galactosyltransferase, effect of excess vitamin A on, 968
Glucocorticoid, effects of adrenalectomy and starvation-refeeding on rat hepatic lipogenic responses to, 1011
Glucose, blood, response to equine diet, 206
— metabolism in steers, effect of phlorizin injection and propionate feeding on, 1366
— turnover, effect in fasted, protein-depleted rats, 1240
Glutamine, hepatic utilization in rats fed high protein diets, 569
—, utilization in developing rat jejunum, 189
Glutathione, hepatic, effect of dietary protein deficiency on diurnal rhythm of, 1048
— metabolism and riboflavin deficiency, effect on responses to hemolytic stimuli, 1149
— peroxidase, effect of dietary methionine on selenium utilization for, 367
— —, effect of obesity, food intake and adrenalectomy on, 739
— —, effect of selenium on activity of, 846
— —, effect of selenium repletion on, 853
— transferase, effect of obesity, food intake and adrenalectomy on, 739
Glycogen, cardiac, response to oral casein hydrolysate, 888
Golgi apparatus, rat liver, decrease in specific activity on galactosyltransferase in, 968
Growth, effects of exercise on compensatory, 1410
—, response surface analysis of effects of protein on patterns of feeding and, 86
Guide for Authors, 1
Guinea pigs, intestinal oxalate-degrading bacteria reduce oxalate absorption and toxicity in, 787
— —, urinary ascorbic acid levels in, 895
Gums, edible, hepatic response of starved rats to, 462

H

Hamster, retinoic acid supplementation and vitamin A deficiency in, 675
Heart disease, coronary, relationship to diet and alcohol in men, 1184
Heart rate, effect of dietary fat on, 1304
Heat production, effect of dietary bulk in fasting sheep on, 1553
— —, effects of myristoyl glyceride and safflower oil in mice, 1463
Histamine, endogenous, ascorbic acid reversal of suppression of lymphocyte blastogenesis by, 639
HMG coA reductase, effect of diet during pregnancy and lactation on, 1177
Horses, response of blood glucose, insulin and cortisol concentrations to diet, 206
Human(s), bioavailability of cereal fructans in, 1325
—, biotin deficiency and serum fatty acid composition of, 342
—, colonic fermentation of dietary fiber in, 321
—, dietary phytase and phytate digestion in, 469
—, diets, effect of fiber and metabolizable energy of, 1075
—, manganese absorption studies with, 1517
—, measurement of energy expenditure by using doubly labeled water, critical review, 1278
—, metabolizable energy of cereal fibers for, 945
—, relationships of iron absorption, plasma transferrin saturation and serum ferritin concentration in, 1110
—, role of carnitine in nutrition of, 541

—, role of tryptophan and serotonin in carbohydrate appetite of, issues and opinions, 1417
—, children, cassava digestibility and utilization in, 877
—, —, nutritional value of amaranth for, 78
—, infants, taurine requirement of, 6
—, men, diet, alcohol and coronary heart disease in, 1184
—, —, manganese balance in, 764
—, —, mineral balance in, 1197
—, —, wheat bran and ispaghula husk decomposition in stomach and small intestine of, 326
—, —, normolipidemic, effect of dietary fat and cholesterol on plasma lipids in, 555
—, noninsulin-dependent diabetic, effect of cottonseed dietary fiber on metabolism of, 1143
—, women, copper absorption by, 1522
—, —, lactose-intolerant postmenopausal, effect of milk and lactose on zinc absorption in, 982
Hypoalbuminemia, in energy-malnourished rats, 121
—, tumor necrosis factor–mediated, in rabbits, 1586
Hypothyroidism, effect on methylmalonate excretion and hepatic vitamin B-12 levels, 1495

I

Immune status, altered spleen natural killer cells from iron-deficient rat pups and, 1558
— —, effect of copper deficiency on, 1041
— —, effects of dietary leucine, α-ketoisocaproate and isovalerate on, 1564
— —, effects of fish oil and tocopherol in young and old mice, 1245
— —, effects of type of dietary fat on indices of, 1376
— —, influence of maternal zinc deprivation and interleukin-1 on zinc metabolism, 1570
— —, nutritional aspects of leukocytic cytokines, 1436
Immunological stress, effect on amino acid requirements of growing chicks, 1158
Insulin response to equine diet, 206
— sensitivity in iron-deficient rats, 1104
—, pancreatic, effects of short-term dehydroepiandrosterone treatment on serum, 382
Interferon stimulation of spleen natural killer cells from iron-deficient rat pups, 1558
Interleukin-1 induction of ceruloplasmin synthesis in rats, 375
—, influence on metallothionein gene expression and zinc metabolism, 1570
Intralipid, uptake and metabolism by rat liver, 932
Inulin, availability in rat intestinal tract, 1482
Ion transport, erythrocyte, effect of starvation on, 1120
Invitations for nominations for 1989 AIN awards and AIN fellows, 920
Iron absorption, relationship to plasma transferrin and serum ferritin in humans, 1110
— deficiency, interferon stimulation of spleen natural killer cells in, 1558
— —, increased insulin sensitivity, 1104
—, dietary, influence on copper deficiency, 214
—, metabolism in obese mice, 46
Issues and Opinions in Nutrition, dietary fiber and cancer, 531
— — — — —, dietary fiber, vegetables and cancer, 1591
— — — — —, epidemiological studies in nutrition, 240
— — — — —, nutrients as nutrients and nutrients as prophylactic drugs, 1420
— — — — —, tryptophan, serotonin and carbohydrate appetite, 1417
— — — — —, utility and limitations of epidemiological studies, 137

J

Jejunum, developing, utilization of glutamine in, 189

K

Keratinocytes, choline requirement for optimal growth in epidermal, 1487
Kittens, dietary excess of branched-chain amino acids in, 311

L

Lactation, extended, effect on transferrin concentrations in rat milk, 669
Lactitol, influence on absorption and retention of calcium, brief communication, 793
Lactose, dietary, effect on endochondral bone growth in vitamin D–deficient rats, 72
— intolerance, effect on zinc absorption, 982
Lead, effect on growth and serotonin metabolism in chicks, 107
Letters to the Editor, 134, 135, 237, 238, 529, 654, 655, 799, 800, 918, 919, 1593, 1594
Leucine, dietary excess in preruminant lambs, 450
—, effect on antibody production and lymphocyte blastogenesis in growing lambs, 1564
—, possible stress factor in niacin- and vitamin B-6–deficient rats, 963
—, role of adenosylcobalamin in biosynthesis of , 159
Linoleic acid, dietary, effect on rat metabolism, thermogenesis and brown adipose tissue, 627
Linolenic acid, dietary, effect on arachidonic acid metabolism in rats, 427
Lipid peroxidation, effects of β-carotene on, 153
Lipoprotein lipase, activity in rats fed a high fat diet, 1294
Lipoproteins, effect of dietary fatty acids and ethanol on, 1299
—, effects of early over- and undernutrition on lipase activity and, 1190
—, normalization by soluble oat fiber in cholesterol-fed rats, 1455
Longevity, effect of food restriction on, 284
Lymphocyte blastogenesis, reversal of histamine suppression of, by ascorbic acid, 639
— —, effect of dietary leucine on, 1564
—, proliferation, effect of dietary fat on rabbit and rat, 11
Lysine bioavailability in browned protein fed to rainbow trout, 19

M

Magnesium, adaptation to low dietary calcium during deficiency of, 729
—, effects of tricarballylic acid on utilization of , 183
—, influence of dietary calcium:phosphorus ratio on excretion of, 1210
Maillard reaction, bioavailability of lysine in browned protein, 19
Manganese, factors affecting absorption and excretion in rats, 1509
—, intrinsic and extrinsic labeling for absorption studies in humans, 1517
—, metabolic balance in young men, 764
Membrane, microsomal, effect of fatty acid deficiency on, 1311
Metabolic activity, hepatocyte, in fed and fasted rats, 1547
Metals, effect of dietary zinc on excretion of biliary, 1385
Metallothionein, role of copper in regulation of, 589
—, tissue-specific accumulation in chickens, 176
—, gene expression, effect of zinc deprivation on, 1570
—, — —, regulation by copper and zinc, 222
—, — —, intestinal, relationship to zinc absorption kinetics, 497
Methionine, effect on rat sulfite oxidase activity, 941
—, metabolism in rat liver, 829
—, preference of porcine kidney fibroblasts as source of, 818
—, derivatives, nutritional value and safety in mice, 388
—, dietary, effect on selenium utilization, 367
—, excess dietary, effects of ingestion by rats for two years, brief communication, 128
Methylmalonate excretion, effect of hypothyroidism on, 1495

Mice, copper deficiency results in graded reduction in immune status in, 1041
—, digestibility of nitrogen and amino acids in protein sources in, 561
—, effect of dietary protein on feeding and growth patterns in, 86
—, fish oil- and tocopherol-induced changes in immune system of, 1245
—, food restriction, circadian disorder and longevity, 284
—, mammary adenocarcinoma treatment in, 1137
—, methionine derivatives, isomeric dipeptides and hydroxy analogs in, 388
—, mineral composition and zinc metabolism in, 349
—, serum lipoprotein profiles in, 1190
—, toxicity of myristoylglycerol to, 1463
—, diabetic, tissue zinc and copper levels in zinc-deficient, 1502
—, obese, iron metabolism in, 46
—, —, trace element–dependent protective enzymes in, 739
—, weanling, effect of varying dietary zinc intake during recovery from early undernutrition on, 690, 699
Mineral balance, in young spontaneously hypertensive rats, 114
—, excretion, influence of calcium:phosphorus ration on, 1210
— metabolism, effect of tea consumption on, 52
Mitochondrial function, effect of membrane phospholipid modification on, 290
Myristoyl glycerol, toxicity to mice, 1463

N

Natural killer cells, fish oil– and tocopherol-induced changes in activity of, 1245
— — —, stimulation by interferon in iron-deficient rats, 1558
Nephrocalcinosis, influence of dietary calcium:phosphorus ratio on mineral excretion and, 1210
Niacin, effect on growth and serotonin metabolism in chicks, 107
—, immature corn as source of, 165
— deficiency, effects of ethanol and leucine on, 963
Nicotinamide, effect on methionine metabolism in rat liver, 829
Nile tilapia, amino acid requirements for growth of, 1540
Nitrogen, digestibility in protein sources, 561
— content, food intake of lean and obese Zucker rats in relation to, 503
Nutrient intake estimates, accuracy and reliability of, 1432
Nutrients as drugs, issues and opinions in nutrition, 1420

O

Octanoate, metabolic fate in isolated rat hepatocytes, 297
Oleate, metabolic fate in isolated rat hepatocytes, 297
Organ size, visceral, in fed and fasted rats, 1547
Overfeeding, effect on composition of gain, liver metabolism and adipocyte cellularity, 194
Overnutrition, early, effect on serum lipoprotein profiles, 1190
Oxalic acid, dietary, absorption and toxicity in guinea pigs, 787
— —, effect on mineral balance in men, 1197

P

Pancreas, effects of synthetic proteas inhibitor on exocrine and endocrine, 645
—, exocrine, effect of excess dietary zinc on, 681
—, —, enzyme activities and mineral concentrations in corpulent male rats, 834
—, —, secretagogue-induced enzyme release with high dietary protein, 305
Parasites, intestinal, effect on hypoalbuminemia in energy-malnourished rats, 121
Parathyroid hormone, effects of dietary restriction on, 1360
Pentose phosphate deydrogenase, repression of synthesis by dietary fat, 408
Peptides, short-chain, utilization after intravenous bolus injection in rats, 1470
Phosphate, inorganic, transport in embryonic chick intestine, 1529
Phospholipids, effect of dietary fish oil on, 809
—, modification with dietary sardine oil, 290
Phosphorus, influence on mineral excretion and nephrocalcinosis in female rats, 1210
Phytase, dietary, effect on phytate digestion in human stomach and small intestine, 469
Phytic acid, enhancement of copper bioavailability by, 712
Pigs, role of tryptophan in regulation of protein synthesis in muscle of, 445
—, lean and obese, response to severe feed restriction during gestation, 1223
—, neonatal, nutritive value of soybeans in, 438
Polybrominated biphenyl, retinoic acid and vitamin A homeostasis in rats treated with, 416
Preadipocyte growth in culture, affect of rat sera on, 803
Pregnancy, repeated wihout lactation, effect on rat carcass composition and adipose tissue cellularity, 93
—, comparative response of pigs to severe feed restriction during, 1223
—, synthesis of hepatic protein during, 1319
Proceedings, 52nd Annual Meeting of the American Institute of Nutrition, 1258
Propionate metabolism in steers, effect of phlorizin injection and propionate feeding on, 1366
Prostaglandin E_2 synthesis, fish oil– and tocopherol-induced changes in, 1245
Prostate adenocarcinomas, transplantable, effect of dietary fat level on growth of, 908
Protein, dietary, effect of carcinogen-induced breast cancer in rats, 1577
—, —, effect on rat sulfite oxidase activity, 941
—, —, response of growth in mice to, 86
—, —, high, effects of ingestion by rats for two years, brief communication, 128
—, —, —, enzyme release from rat exocrine pancreas following adaptation to, 305
Protein synthesis, by gut microflora in chicks, effect of diet type on, 1068
— —, in liver of pregnant rats, 1319
— —, role of tryptophan in regulation of, 445
Protein-energy malnutrition and hypoalbuminemia in nematode-infected rats, 121
— — —, effect of dietary zinc on recover from, 690, 699
— — —, effect on rat reproductive performance, 883
— — —, effect on vitamin A status and retinal function in taurine-supplemented, 23
— — —, value of serum transthyretin measurement in assessment of, 1002
Proteinase activity, human duodenal, in vitro effect of high and low inhibitor soybean meals on, 521
— —, — —, in vivo effect of high and low inhibitor soybean meals on, 515
Purines, dietary, uricogenic effects in rats, 780
Pyridoxine-β-glucoside, incomplete utilization as vitamin B-6 in rats, 170

R

Rabbits, carnitine deficiency in neonate, 1535
—, effect of dietary fat on immune status of, 1376
—, effect of dietery fat on lymphocyte proliferation of, 11
—, tumor necrosis factor–mediated hypoalbuminemia in, 1586
Rats, hypertensive, free amino acids in, 579
—, —, mineral balance and blood pressure in, 114

—, obese, exocrine pancreatic enzyme activites and mineral concentrations in, 834
—, —, food intake in relation to nitrogen content of, 503
—, —, serum and pancreatic insulin in, 382
Retinoic acid, effect on membranes of rats consuming ethanol, 1097
— —, effect on vitamin A homeostasis in polybrominated biphenyl–treated rats, 416
— —, supplementation of vitamin A–deficient diet in hamsters, 675
Retinol derivative, modified dose-response assay with, 598
—, rat, enterohepatic circulation of , 33
Retinyl palmitate, effect on corn oil–induced superoxide dismutase and catalase, 152
Review, Critical, food restriction, circadian disorder and longevity of rats and mice, 284
—, —, measurement of energy expenditure in free-living humans by using doubly labeled water, 1278
—, —, nutritional aspects of leukocytic cytokines, 1436
—, —, role of carnitine in human nutrition, 541
—, —, taurine and infant nutrition, 6
—, —, taurine in development, 1169
Riboflavin deficiency, and glutathione metabolism in rats, effect on responses to hemolytic stimuli, 1149
— —, transcriptional regulation of carnitine palmitoyltransferase synthesis in, 1128
Rumen microbes, factors affecting protein synthesis of, 242
— —, fiber digestion by, 261
— —, genetic alteration of, 271
— —, influence of major minerals on, 249

S

Salmon oil, dietary, effect on rat heart lipid status, 809
Saponins, interaction with bile salts and small intestinal mucosa, 1391
Sardine oil, dietary, modification of rat membrane phospholipid with, 290
Seals, hooded, vitamin D metabolism in, 332
Selenium, effect on plasma creatine kinase activity in calves, 747
— utilization from selenomethionine for glutathione peroxidase, 367
— —, effect on tissue selenium levels and rat glutathione peroxidase activity, 846
—, repletion, effect on glutathione peroxidase protein level in liver, 853
—, dietary, effect on bovine immune response, 229
Selenocyanate, nutritional availability and chronic toxicity in rats, 718
Serotonin metabolism, effect of lead and niacin on, 107
—, tryptophan and carbohydrate appetite, issues and opinions in nutrition, 1417
Sheep, dietary calcium and metacarpal growth in, 976
—, effect of dietary bulk on organ mass, fasting heat production and metabolism in intestines of, 1553
—, effects of dietary leucine, α-ketoisocaproate, and isovalerate on, 1564
—, effects of excess dietary leucine in preruminant, 450
Somatotropin, bovine, effect on metabolism of lactating dairy cows, 1024, 1031
Soybeans, in vitro effect on human duodenal proteinase activity, 521
—, in vivo effect on human duodenal proteinase activity, 515
—, nutritive value in neonatal pigs, 438
Starch, dietary, influence on dietary copper requirement in young rats, 487
—, —, manganese absorption and excretion, effect on, 1509
Starvation, reduced ion transport in male rats during, 1120
Sulfite oxidase activity, effect of dietary protein and methionine on, 941
Sulfur amino acid metabolism, possible indicator of dietary protein quality, 456
Superoxide dismutase, effect of obesity, food intake and adrenalectomy on, 739
— —, effects of β-carotene and retinyl palmitate on, 152
— —, influence of copper intake and inflammation on, 474
— —, role of copper in regulation of, 859
Symposium, altered productivity of the rumen ecosystem, 242

T

T-2 toxicosis, potential for dietary amino acid precursors of neurotransmitters to overcome changes in, 901
Taurine, in development, critical review, 1169
— and infant nutrition, critical review, 6
— supplementation, effect on retinal function of protein-malnourished rats, 23
Tea, effect on iron, copper and zinc metabolism in rats, 52
Thermogenesis, cafeteria diet as a tool for study of, commentary, 925
—, diet- and cold-induced in genetically fat and lean chickens, 1232
—, effect of essential fatty acids on nonshivering, 627
Thiamin absorption in folate-deficient rats, 1343
Tô, sorghum, carbohydrate composition and nutritional quality of, 588
Tocopherol, changes in natural killer cell–mediated cytotoxicity and prostaglandin synthesis in mice induced by, 1245
—, excess dietary zinc decreases chick tissue, 1349
Transamidinase, multiple forms in rat kidney, 1403
Transferrin, effect of extended lactation and diet on concentrations in rat milk, 669
—, relationship to iron adsorption and serum ferritin, 1110
Transthyretin, effects of fasting and refeeding on, 199
—, serum, value in assessing marginal protein-energy malnutrition in rats, 1002
Tricarballylic acid, effect on magnesium, calcium and zinc utilization, 183
Triglyceride secretion, effect of fructose- or glucose-based diets containing corn oil, tallow or marine oil on, 1061
Triglycerides, medium-chain, long-term feeding of, 297
Triiodothyronine, influence of on calcium and inorganic phosphate transport in chick intestine, 1529
Trout, rainbow, Maillard browning reaction and plasma lysine response in, 19
Tryptophan, role in regulation of protein synthesis in porcine muscle, 445
—, serotonin and carbohydrate appetite, issues and opinions in nutrition, 1417

U

Undernutrition, effect during gestation in pigs, 1223
—, effect of exercise on rat recovery from, 1410
—, effects on serum vitamin D and parathyroid hormone, 1360

V

Vitamin A deficiency, retinoid losses in hamsters with, 675
— — depletion, effect on liver cell vitamin A, 1331
— — excess decreases galactosyltransferase in liver Golgi apparatus, 968
— — status, effect of zinc deficiency on, 995
— — —, protein-energy malnutrition and taurine supplementation, effects on, 23
— A_2, modified dose-response assay with, 598
Vitamin B-6, bioavailability from wheat bran or cellulose rat diets, 65
— —, incomplete utilization of pyridoxine-β-glucoside as, 170
— —, influence on pyridoxine-β-glucoside utilization in rats, 1336

— — deficiency, abnormal molecules of mitochondrial aspartate aminotransferase in, 609
— — —, effects of ethanol and leucine on, 963
Vitamin B-12, effect of hypothyroidism on hepatic levels of, 1495
— — deficiency, leucine metabolism of chickens with, 161
Vitamin C, identification, editorial comment, 1271
— —, —, historical summary, commentary, 1290
Vitamin D, effect of dietary restriction on serum levels of, 1360
— —, effect on rat bone metabolism, 99
— —, triiodothyronine enhances genomic action of, 1529
— —, metabolism in hooded seal, 332
— —, in aged laying hens, metabolism of, 1018
— — deficiency, effect of lactose on, 72
Vitamin E, effect on plasma creatine kinase activity in calves, 747
Wheat bran, decomposition in stomach and small intestine of healthy men, 326

Z

Z protein, effect of choline deficiency on, 1116
Zinc, maternal-fetal transfer in pregnant rats consuming ethanol, 865
—, regulation of metallothionein gene expression by, 222
—, tissue levels in zinc-deficient diabetic mice, 1502
— absorption, site in dog small intestine, 61
— —, effect of milk and lactose consumption by postmenopausal women on, 982
— —, effect of zinc intake on, 1205
— —, relationship of intestinal metallothionein to kinetics of, 497
— administration, influence on metallothionein accumulation in chickens, 176
— deficiency, effect on angiotensin-converting enzyme in rat lung and testis, 622
— —, effect on hepatic enzymes regulating vitamin A status, 995
— —, effect on rat erythrocyte membrane polyamines, 987
— —, effect on rat maternal brain microtubule assembly, 735
— —, effect on rat primary free radical defense system, 613
— deprivation, maternal, influence on metallothionein gene expression and zinc metabolism in rats, 1570
— excretion, endogenous, effect of zinc intake on, 1205
— metabolism in female mice, 349
— utilization, tricarballylic acid effects on, 183
—, dietary, effect on biliary metal excretion of rats, 1385
—, —, effect on chick pancreatic exocrine function, 681
—, —, effect on recovery from malnutrition in weanling mouse pups, 690, 699
—, —, excess, effect on tissue α-tocopherol in chicks, 1349
—, intestinal, response to protein consumption by rats, 723
